Thinking about my wishes for future health care

This document is meant to help you think about your values and to express your wishes for future health care. It is not intended to be a document that tells your doctors what to do in the future. It is meant to help prepare you for talking to your doctors about the kinds of medical treatments you do or do not want if you develop a serious illness. Also, it can help your substitute decision maker make decisions if the time arises when you are unable to make decisions for yourself. There is also a space where you can record who your substitute decision maker is. Remember that you can change your mind at any time – just be sure that you talk to your substitute decision maker(s) about any changes.

You can find more information in Speak Up: Advance Care Planning Workbook found at www.advancecareplanning.ca.

1. These first questions are intended to help you think about the use of life-sustaining medical treatments as a part of your care. Please see the Word List if you are do not know what some of these terms mean.

Please circle one number for each question where 1 means that this is not at all important and 10 means that it is very important.

<table>
<thead>

2. Now, here are some questions to help you think about the kind of care you would want if you had a terminal condition (please check off all that apply):

**Life-sustaining treatments**
- ☐ I do not want life-sustaining treatments (including CPR) started. If life-sustaining treatments are started, I want them stopped.
- ☐ I want the life-sustaining treatments that my doctors think are best for me.

*Other wishes (please describe)*

---

**Artificial nutrition and hydration**
- ☐ I do not want artificial nutrition and hydration started if they would be the main treatments keeping me alive. If artificial nutrition and hydration are started, I want them stopped.
- ☐ I want artificial nutrition and hydration even if they are the main treatments keeping me alive.

*Other wishes (please describe)*

---

**Comfort care**
- ☐ I want to be kept as comfortable and free of pain as possible, even if such care prolongs my dying or shortens my life.

*Other wishes (please describe)*

---

3. Now here are some questions to help you think about the kind of care you would want if you were ever in a persistent vegetative state. (Please check off all that apply.)

Life-sustaining treatments
☐ I do not want life-sustaining treatments (including CPR) started. If life-sustaining treatments are started, I want them stopped.

☐ I want the life-sustaining treatments that my doctors think are best for me.
Other wishes (please describe)

Artificial nutrition and hydration
☐ I do not want artificial nutrition and hydration started if they would be the main treatments keeping me alive. If artificial nutrition and hydration are started, I want them stopped.

☐ I want artificial nutrition and hydration even if they are the main treatments keeping me alive.
Other wishes (please describe)

Comfort care
☐ I want to be kept as comfortable and free of pain as possible, even if such care prolongs my dying or shortens my life.
Other wishes (please describe)

4. Is there any condition or quality of life that you would consider ‘unacceptable’?

For example, some people say “I would rather die than live in a nursing home where I am totally dependent on others.”

Think about what health conditions would be unacceptable to you and write them down here.

After you have filled out this document, make sure to give a copy of it to your future substitute decision maker(s), family members, doctor, nurse practitioner, and any other health or legal professionals.

Most important, talk to your future substitute decision maker(s) about your wishes. They may have questions about your wishes. Remember, this person only speaks on your behalf if you are unable to speak for yourself.
